

## Heat Policy

If the weather is forecast to be 35°C or higher during the time of any classes, all classes will be cancelled for that day.

The weather report will be taken at 6pm the day before via the Bureau of Meteorology website.

All active members of FEA will be emailed to notify them of canceled classes. A post will also be made into the FEA community group BAND app.

Refunds can not be given due to the heat as outlined in the club rules and procedures.

Team training will be rescheduled to another time to make up lost training, where applicable, it may not be within the same week, but a makeup lesson will be made where the coach can see fit. If there is not available time (eg, end of term or year, unavailable floor space) no makeup lesson will be made.

Tumbling classes will be given a makeup session.

Semi privates/privates will have the option to rebook (depending on availability) or receive account credit for missed session if the lesson has been paid.
