“

My two daughters have been at force elite academy for 3 years and in that time they have grown in both their skill level and in themselves.

The gym provides an environment that fosters growth and passion.

The coaches are always helping the athletes to achieve their goals for themselves as well as providing opportunities to the athletes to extend beyond their own goals!

FEA has provided my girls a **safe, supportive and encouraging environment** that my girls adore and are thriving in!

“

Being a part of the Force Elite Academy group has been an absolute joy. From the moment we joined, we were welcomed with open arms and genuine smiles.

The **inclusivity and friendliness within the group are unmatched, creating a positive and supportive environment.**

It's more than just a team; it's a family where everyone's unique talents are celebrated, and every member is valued. We couldn't be happier to be a part of such a fantastic, welcoming community. Thank you for making us feel right at home, and having my children's safety and well-being at the top of your priorities

★ *Flyers* Classes

It is no secret that being a cheerleader flyer is one of the most unnatural activities the human body can do. Humans were simply not designed to be thrown around in the air. It takes time and patience to develop the confidence, conditioning and technique to become a superstar flyer.

At FEA, we have years of experience creating the best flyers in the state. Our Flyers Classes are a must for all flyers Novice to Elite Level. Those chosen as flyers on any Level 1-6 team must attend 1 flyers class per week.

Enroll into this program when you complete your enrollment process

Cost: \$7 / Additional class (Single flyer or flex class per week included in All-Star Tuition); **Class length:** 30 mins

★ *Flexibility* Classes

Dedicated class for maintaining flexibility throughout the body. Great for injury prevention & beneficial to all athletes, not just flyers. We highly recommend this class as a standard add-on to any athlete's weekly schedule.

★ *Open Tumble*

Tumbling is one of those activities that takes a lot of hard work and practice to master and progress. Time in the gym is so important to get the repetition and condition level where you need it to be. Open tumble allows for self-driven athletes to use the gym at their own pace and practice skills under supervision without any instructor.

Cost: \$5 / class; **Class length:** between 60-120 mins
